

B. 2016 overall Assigned Assessment Density Per Square Mile, with the Ages 0 – 5 subsets: This map of the Colorado Springs metro area shows the density of DHS child abuse/neglect assigned assessments for the 2016 calendar year. The areas of no color represent the lowest density of 0-5 assigned assessments per square mile. The yellow to dark orange colors represent areas of increased density, capped by the highest density of 120.1-138 assigned assessments per square mile, as seen near the intersection of Academy Boulevard and Fountain Boulevard. The labeled thick black lines show the densities of incidents specific to children ages 0 – 5, scaled to match the scale for the overall assessment density. The assigned assessment data was provided by the El Paso County Department of Human Services.
