

C. 2016 overall Founded Allegation Density Per Square Mile, with the Ages 0 – 5 subsets: This map of the Colorado Springs metro area shows the density of DHS child abuse/neglect founded allegations for the 2016 calendar year. The areas of no color represent the lowest density of 0-2 founded allegations per square mile. The yellow to dark orange colors represent areas of increased density, capped by the highest densities of 36.1-39 founded allegations per square mile, as seen near the intersection of Academy Boulevard and Fountain Blvd. The labeled thick black lines show the densities of incidents specific to children ages 0 – 5, scaled to match the scale for the overall founded density. The founded allegation data was provided by the El Paso County Department of Human Services.
